The goal of this walk is to not only raise awareness about brain AVM's but also raise funds for two important charity foundations who help families who have received this devastating diagnosis. We are hopeful that through raising money for research there will one day be a safe and effective cure for local College Station High School student Kyler Lewis and other children and adults who are given this life-altering diagnosis.

Thank you for joining us as a sponsor!

Checks made payable to
The Aneurysm and AVM Foundation

Please return completed form and checks
